

RoScripter Discord Rules

Welcome to the Roscripter Community Discord server! To ensure that all of our members have a pleasant experience, we've assembled a few rules and guidelines for our community. Please abide by these rules at all times while transmitting content in our server.

1 | Common Sense

- Above all, please use common sense in our Discord server. If you are unsure about if an action is against the rules, please use common sense to determine whether that act is suitable for the server.

2 | Family Friendly Content

- The Roscripter server is a family friendly community so all content including but not limited to text, images, videos, and audio should be appropriate for a PG audience.

3 | Scamming

- Scamming or using somebody else's work without their explicit permission is forbidden if you are a member of our server. Our moderation team classifies a scam as a deed where the buyer fully pays for promised goods and the seller does not deliver the items that they specified would be sent.

4 | Personal Information

- Our moderation team asks that you please refrain from *requesting* any personal information about any RoScripter Discord community members. "Personal Information" contains but is not limited to age, address, and full names. Users are free to share this information if they'd like but one member cannot *ask* for these details about another user. We also ask that you please do not IP log anyone in our server.

5 | Civil Rights

- Please steer clear of conversations relating to race, religion, sexual orientation, and political view. This is a Roblox development server so these topics should not be discussed within any of our text/voice channels.

6 | Advertisements

- Game links, Discord invites, and other forms of advertisements are forbidden from our server in certain circumstances. A user may post their game link to receive criticism or send their Discord server invite to friends, but in other situations, these forms of advertisement should not be posted. DM advertising is strictly prohibited.

7 | Spamming / Pings

- Spam, ghost pings, and mass pings are not allowed in our server. Please do not send a large number of messages in a short period of time, ping user(s) then delete the message containing the ping(s), or ping more than 3 users at once.

8 | Requesting Items of Monetary Value

- Please do not ask members of our server for items that have monetary worth. Items that have monetary worth include but are not limited to Discord Nitro, Robux, and Roblox Premium.

9 | Marketplace Hiring

- If you are looking to hire a developer for your project, our marketplace channels are a great way to do so! We'd like to ask that you use these channels appropriately and refrain from messaging hiring requests to anyone in our server who hasn't told you to do so or doesn't have a post in one of these channels.

Thank you for abiding by these rules and for keeping the server a positive environment for anyone to come to chat about Roblox Development. If you have any questions about these rules, don't hesitate to DM Wyatt or any of the other moderators.
